Enchanting fragrances

We accepted with great pleasure, the information that the Spa Senses Collection has been awarded the best packaging of the year under the Health and Beauty category, in the Polish national competition Art of Packaging 2010. This competition promotes and acknowledges the most innovative and creative packaging with interesting form, value in use, appealing design and aesthetic finish. The packaging is awarded because it satisfies the taste of even the most demanding consumers. It makes us even prouder that the Spa Senses Collection, which is already valued by yourselves, has been recognised by the specialists.

We enjoy being surrounded with beauty and the pleasure is doubled, when we combine an attractive bottle with a tempting fragrance. This is why we introduced some new perfumes and Eau de Parfums in the attractive Luxury Collection bottles for our new FM by Federico Mahora range. According to the latest trends these fragrances are mostly intriguing, ambiguous and sometimes with a hint of spice. I am sure they will be to your liking.

Browse through our catalogue and enjoy a successful shopping experience!

Never buy certain perfumes just because you like them on someone else. The fragrance will create a unique composition with that person’s skin and you may find a different FM fragrance by Federico Mahora more suitable.
